Basswood

Cedar

Eucalyptus

- ▶ 6 one-touch, preset health programs to help achieve desired result
- ▶ 10.5" Android-powered control panel
 - Clinically-backed near, mid & far infrared
 - ▶ health benefits

mPulse Conquer Panels

For seamless craftsmanship, each wall of the Conquer consists of one large wooden panel:

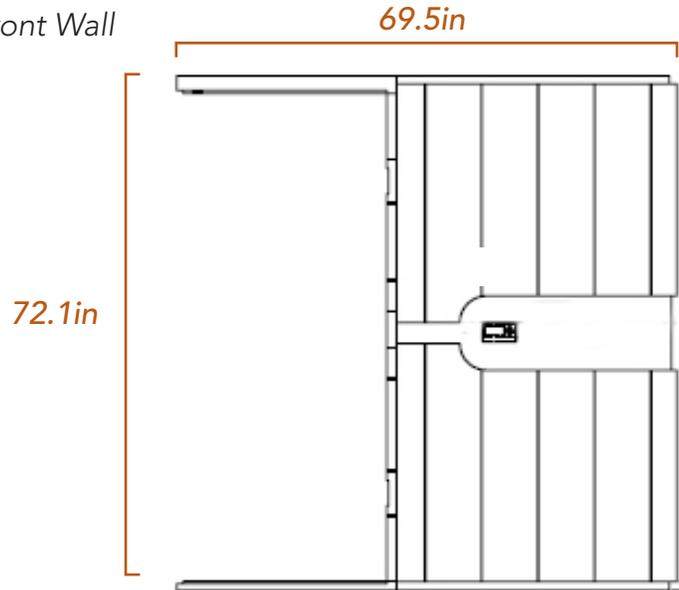

- Roof & Floor Panels
70.6"x47.6"x2.75" thick (see diagram)
- Back & Front Panels
69.5"x72.1"x2.75" thick (see diagram)
- Side Panels 45.1"x72.1"x2.75" thick

Important Note: All eucalyptus models have a solid wood floor; no floor heaters included.

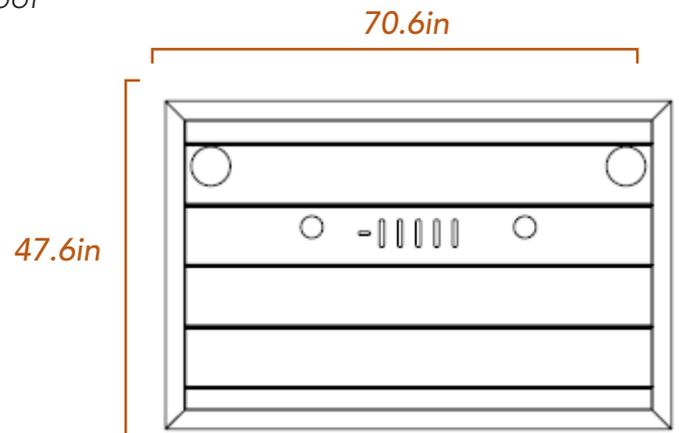

Fitting into your home:

Because of the large panel size, it is important to ensure there is enough space through the doors and pathways to the sauna's location in your home. Standard doors in the US are 30" to 36" wide, and 6' to 8' tall. Please measure any doorway or hallway needed prior to purchase.

Front Wall

Roof

The mPulse Series is the only sauna series to offer near, mid and far infrared technology for targeted results. Featuring a 10.1" Android control panel, 6 wellness programs, highest quality eco-friendly wood options (hypoallergenic basswood, western Canadian cedar and eucalyptus), Magne-Seal assembly and ergonomic, floating benches, the mPulse is the smartest sauna on the planet.
